

The Vietnamese cuisine secrets

The Vietnamese cuisine is characterized by the fresh flavors of the delicate and elaborate dishes; these are the secrets of the authentic and healthy culinary traditions of Vietnam:

5 essential spices: Cinnamon, ginger, star anise, lemongrass and clove. These five elements reflect the basis of the 5 typical flavors of our cuisine: Sweet, sour, bitter, salty and umami (savory).

Nước mắm: Fish sauce is a very common ingredient: It's used for marinating meat and fish, and also to give an exotic flavor in our sauces.

Fresh herbs and vegetables: Mint, cilantro, lettuce, basil, lime, fresh chilli... These and other many asian herbs are combined with meat and fish to get the harmonious balance between yin (cold) and yang (hot).

With the balance between fresh herbs and meats and a selective use of spices to reach a fine taste, Vietnamese food is considered one of the healthiest cuisines worldwide.

Starters
